

# CPSC 304 Project Cover Page

Milestone # 3: Timeline

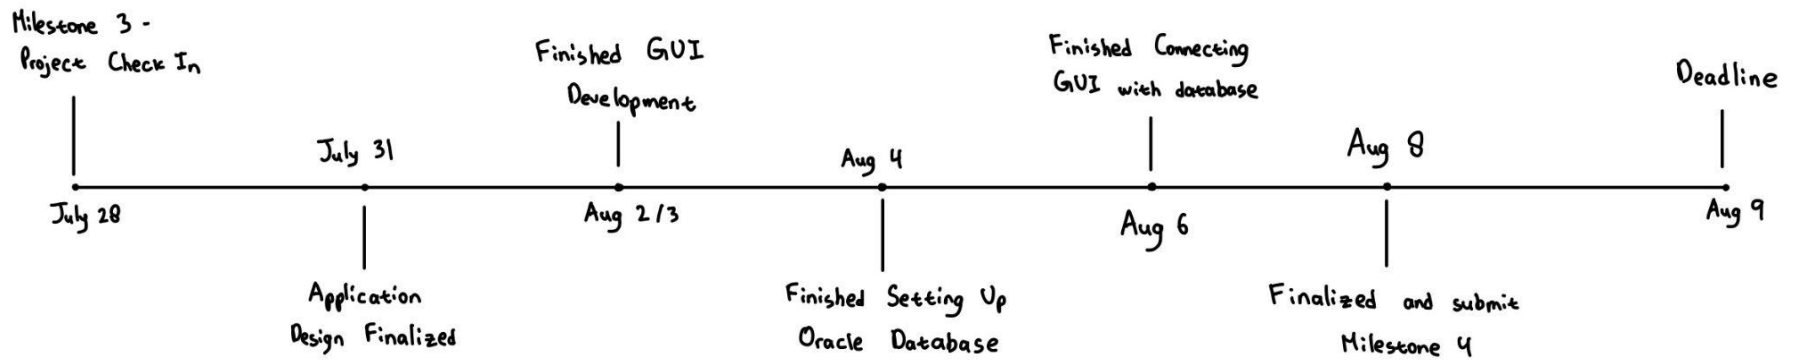

Date: July 26, 2023

Group Number: 7

Name	Student Number	CS Alias (Userid)	Preferred E-mail Address
Julian Widjaja	73873796	i0k7n	julian.widjaja02@gmail.com
Hannah Shiang	47799820	p1l1e	hanhanshiang6@gmail.com
Michealea Faustine	44619948	r1l70	michealeafaustin@gmail.com

By typing our names and student numbers in the above table, we certify that the work in the attached assignment was performed solely by those whose names and student IDs are included above. (In the case of Project Milestone 0, the main purpose of this page is for you to let us know your e-mail address, and then let us assign you to a TA for your project supervisor.)

In addition, we indicate that we are fully aware of the rules and consequences of plagiarism, as set forth by the Department of Computer Science and the University of British Columbia

#### July 28 - Project Check In

- Discuss the timeline and tasks with TA.

#### July 31 - Application Design Finalized

- Design the ui/ux of our GUI application
- Decide on what features we want to implement in our application
- Design how each component will access and modify our database
- Divide tasks for GUI development

#### Aug 2/3 - Finished GUI Development

- Finish the development of GUI (or at least majority of them as we might still modify them or add more later on)
- Divide tasks for setting up the oracle database

#### Aug 4 - Finished Setting Up Oracle Database

- Every member should be able to access the oracle database
- Create SQL script to populate the database instances with preliminary data
- Divide tasks for connecting GUI with database

Aug 6 - Finished Connecting GUI with database

- GUI is able to access information from database
- GUI is able to create new data, modify data, and delete data

Aug 8 - Finalized and submit Milestone 4

- Review and finalize our application
- Finalize all documents needed for Milestone 4
